

Letter Counter LC-10 (IR)

Technical Data

Operating voltage:	85...132VAC/60Hz and 180...264VAC/50Hz
Standby:	18 Watts / 80 mA
Rated Power:	91 Watts / 400 mA (max.)
Dimensions (incl. format slide unit):	1110 (max.) x 370 x 370 mm (l x w x h)
Weight:	25.6 kg
Piling-Option:	standard (for stacked and nested envelopes!)
Automatic Start/Stop:	Option (IR)
Length of receiving tray:	382 mm
Max. width of envelope:	250 mm (B5/B4, B6/5)
Max. thickness of package:	10 mm
Counting speed (C5, C5/6):	12'000 envelopes per hour (max.)
Counter (integrated):	LCD Batch-Counter with 7-segment display and integrated EEPROM for memory backup
Power cable length (fixed):	2 meters
Area of use:	according to EU-Norms
Licensing:	CE
Product warranty:	2 years
Accessories (incl.):	Cover, replacement fuse, instruction manual

Applications:

Counting of all kind of envelopes with presetting of nominal values.

Counting of ballot papers, talons etc. with paper thickness of minimum 80g/m²

In the interest of further technical development, any design and technical modifications to the Letter Counter are reserved.
